

Preliminary Report on the Survey Results of 26/12/2004 Indian Ocean Tsunami in the Maldives

by

Koji Fujima (National Defense Academy)

Takashi Tomita (Port and Airport Research Institute)

Kazuhiko Honda (Port and Airport Research Institute)

Yoshinori Shigihara (National Defense Academy)

Hisamichi Nobuoka (Ibaraki University)

Minoru Hanzawa (Tetra Co. Ltd.)

Hiroyuki Fujii (INA Corporation)

Hideo Ohtani (Taisei Corporation Technology Center)

Sadao Orishimo (Pacific Consultants International)

Masahiro Tatsumi (Wakachiku Construction Co. Ltd.)

Syun-ichi Koshimura (Disaster Reduction and Human Renovation
Institution)

April 2005

CONTENTS

	Page
1. INTRODUCTION	2
2. THE 2004, DECEMBER NORTHERN SUMATRA EARTHQUAKE AND THE INDIAN OCEAN TSUNAMIS	4
2.1 An Overview	4
2.2 Numerical Modeling of Tsunami	5
2.3 Summary	11
3. SURVEY RESULTS ON TSUNAMI DAMAGE AND TRACE HEIGHT	14
3.1 Male'	14
3.2 Male' International Airport (Hulhule) and Hulhumale	17
3.3 Haa Dhaalu Atoll	22
3.4 South Male' Atoll	31
3.5 Vaavu Atoll	36
3.6 Meemu Atoll	38
3.7 Dhaalu Atoll	40
3.8 Laamu Atoll	44
3.9 Seenu Atoll	49
4. NUMERICAL SIMULATION FOR MALE', HULHULE AND HULHUMALE'	59
4.1 Male' Seawall Project	59
4.2 Method of the Simulation	62
4.3 Result of the Simulation	66
4.4 Conclusions	80
5. RESTORATION PLANNING	82
5.1 Structural Measures for Hazard Prevention	82
5.2 Evacuation and Education	86
5.3 Future Plan	88
ACKNOWLEDGEMENT	89
APPENDIX
